Subject: Nakamura's Deposition

Casey/Felix,

We are looking to schedule Nakamura deposition in December or January in Las Vegas. Please give us some dates you and your client are available. Also, we are assuming we will need an interpreter present and that the language barrier will cause the deposition to proceed rather slowly. Although we will strive to complete the deposition in 1 day, I think we need to set aside 1.5-2 days to be safe.

Look forward to hearing from you.

Subject: RE: Nakamura's responses to discovery

Tim, thank you for putting this together.

A few edits in the attached - mostly to spell out other deadlines and comply with the requirement in the local rules that requests for extension must include which number request this is (the second request to change the briefing schedule on the motion to dismiss counterclaims).

You may file with these edits.
